ABOUT ME

I'm a versatile web developer skilled in frontend (JavaScript, Tailwind CSS, HTML5) and backend (Node.js, Express). Proficient in SQL and MongoDB, I create responsive, performance-optimized websites. Experienced with Git, I excel in collaborative environments with strong communication and problem-solving abilities.

2018-2019

PROJECTS

TOUR AND TRAVELS WEBSITE

https://travelwithus.vercel.app

Developed a responsive tour and travel website, prioritizing user experience and seamless functionality across various devices and screen sizes.

CODETYPO: INTERACTIVE CODING LANGUAGE TYPING PRACTICE PLATFORM

https://codetypo.vercel.app

Developed CodeTypo, a web platform dedicated to practicing typing coding languages such as Java and Python. This project enables users to enhance their coding speed and accuracy through interactive exercises and real-time performance tracking.
